TDARX HELPS SMBS USE IRC SECTION 179 TO BENEFIT FROM SIGNIFICANT TAX DEDUCTION ON NEW TECHNOLOGY

WINSTON SALEM, NC – November 28, 2012- TDARx, Inc., a leading provider in unified communications, announced today that the company is helping customers take advantage of a large tax-break for small to mid-sized businesses with Internal Revenue Code (IRC) Section 179. Section 179 of the IRS tax code allows businesses to deduct the full purchase price of qualifying equipment and/or software purchased or financed during the tax year. That means that if a business owner buys (or leases) a piece of qualifying equipment, he can deduct the full purchase price from his gross income. Essentially, it's an incentive created by the U.S. government to encourage businesses to buy new equipment and invest in their companies.

The recession has taken a toll on many businesses and this program provides a means for business owners to access much needed savings on major purchases of technology equipment, software or business phone systems. If business owners act by December 31st, 2012 they can write-off the

entire purchase price of qualifying phone systems in the first year up to \$139,000. While every transaction is different and tax professionals should be consulted on specific situations, the potential rewards of this program have nudged many business owners to invest in the technology they need to gain a competitive advantage for 2013. This year, Section 179 also extends to cover off-the-shelf software purchases in addition to traditional equipment. Many business owners have installed new business phone systems as a result of this addition to the tax code, because recent breakthroughs in unified communications are enabling businesses to collaborate better, faster and more efficiently with one another.

“We were stunned to find out that so many of our customers had not yet heard of Section 179,” commented Mike Shuping, President of TDARx, Inc.. “We may specialize in delivering technology solutions to our customers, but we treat our customers like partners. When we find something as powerful as this program we have always considered it to be

our duty to share this information to our customers. Our goal is to introduce our customers to technology that not only enhances their productivity, but more importantly increases their bottom-line. That approach has contributed largely to our success over the years and we plan on continuing to serve our customers in a proactive manner for years to come.”

ABOUT TDARx, INC.

TDARx, Inc. came into existence when TeleData Services, Inc., a regional leader in business communications, and Arx Technology, Inc., a leading provider of computer and data networking technologies, merged in January 2008. The merger enhances TDARx's expertise in a full line of communication technology, which helps its customers increase their profitability and improve competitive advantage. TeleData Services, Inc. was founded in 1988 by Mike Shuping with partners Michael Nester and Larry Halsey. For the past 20 years, TeleData Services has been and is committed to establishing and maintaining a

dynamic partnership with every customer. Extensive technology and service experience allowed the TeleData Services, Inc. team to develop an understanding of each customer's unique telecommunications requirements, and to respond to those requirements quickly and effectively.

Founded in 2001 by owner Wesley Walker, Arx Technology had been fulfilling

the IT needs of Triad businesses. The company has over 350 customers and eight certified engineers. These professionals have a number of advanced industry certifications including Microsoft, Macintosh, Cisco, Citrix, Novell, and Linux and provides IT-based growth strategies for small and medium businesses. Arx specializes in data, technology and network

consulting, security and support.

Today, TDArx is poised to help its customers maximize the return on their investment in communication technology. With TDArx, you can focus on your business, while we focus on your IT! For more information, please contact us at (336) 896-0808 or visit www.tdarx.com.
