TDARX Invited to Attend 15th Annual TAG Convention

National Convention for Undisputed Leaders in Unified Communications and Customer Experience

WINSTON SALEM, NC — February 24, 2015— TDARX, Inc., a leading provider of unified communications, announced today that Mike Shuping, the company's President, will be attending Technology Assurance Group's (TAG) 15th Annual Convention. The event will take place on April 19th-22nd in Savannah, Georgia at the Hyatt Regency. TAG is an international association of independently owned unified communications companies representing nearly \$350M in products and services in the industry.

The purpose of the convention is to bring together the brightest leaders and most progressive thinkers in the technology industry to share best business practices and mutually contribute towards one another's growth. The overarching goal is to unveil and share practices that make each company deliver a better customer experience from start to finish. The event is invite-only and is reserved for elite organizations with a track record of innovation, customer-centric business philosophy and a desire to serve their local community. Each business represented is a pioneer in their respective marketplaces and the discussions will range from emerging technologies to new business practices to advancements in customer experience.

"This event is always packed with new ideas that keep us at the forefront of new developments in our rapidly advancing field," stated Mr. Shuping. "We find it very valuable to collaborate with other CEOs, Owners and high-performers to identify new ways of doing things. We consider it our obligation to attend prestigious events like this because we need to know what's coming down the pipeline and how that's going to affect our customers. When we see new developments before the mass market,

we usually can leverage that to accelerate the growth of our customers' businesses before everyone else catches on. This is why we're always one step ahead because we're out there focusing on how we can improve our deployment of advanced technology."

"Experts in voice, managed IT services, security/surveillance, audio visual, structured cabling and managed print solutions will all be in attendance, so every organization will be able to enhance all areas of their business as a result of participating," said Brian Suerth, President of TAG. "One of the keynote speakers, is the world renowned Jeffrey Gitomer, who is an author of several New York Times best sellers. He will be sharing his views on cultivating relationships with today's customer," added Mr. Suerth. "We're looking forward to another successful convention and we're excited about the contributions of high caliber individuals, such as Mr. Shuping."

ABOUT TDARX, INC..

TDARX, Inc. came into existence when TeleData Services, Inc., a regional leader in business communications, and Arx Technology, Inc., a leading provider of computer and data networking technologies, merged in January 2008. The merger enhances TDARX's expertise in a full line of communication technology, which helps its customers increase their profitability and improve competitive advantage.

TeleData Services, Inc. was founded in 1988 by Mike Shuping with partners Michael Nester and Larry Halsey. For the past 20 years, TeleData Services has been and is committed to establishing and maintaining a dynamic partnership with every customer. Extensive technology and service experience allowed the TeleData Services, Inc. team to develop an understanding of each customer's unique

telecommunications requirements, and to respond to those requirements quickly and effectively.

Founded in 2001 by owner Wesley Walker, Arx Technology had been fulfilling the IT needs of Triad businesses. The company has over 350 customers and eight certified engineers. These professionals have a number of advanced industry certifications including Microsoft, Macintosh, Cisco, Citrix, Novell, and Linux and provides IT-based growth strategies for small and medium businesses. Arx specializes in data, technology and network consulting, security and support.

Today, TDARX is poised to help its customers maximize the return on their investment in communication technology. With TDARX, you can focus on your business, while we focus on your IT! For more information, please contact us at (336) 896-0808 or visit www.tdarx.com.
